

The Department of Microbiology and Immunology, The Biotechnology Center, and The Center of Microbiome Research at the Faculty of Pharmacy Cairo University are honored to present

Advanced Metagenomics Workshop

Saturday December 7th, 2019, 10am-4pm

Lecture Hall C, Building E at the Faculty of Pharmacy, Cairo University, Kasr El-Aini St., Cairo

Dr. George F. Wells

Assistant Professor of Civil & Environmental Engineering, McCormick School of Engineering & Applied Science, Northwestern University, Evanston, Illinois, USA

Registration Fees:

- 200 EGP for undergraduate students
- 250 EGP for all others

The workshop will cover:

- ❖ Meta-omics pipeline and application to understanding antibiotic resistance genes in engineered and natural systems.
- ❖ Application of meta-omics techniques to Nitrogen cycling in environmental systems.

Attendance is limited to the first 50 participants. Please **register by contacting the Biotechnology Center** at FOPCU (6th floor, Building A, Room 601).
